

Genealogy Basics: Using Ancestry's RootsWeb WorldConnect Project's User Contributed Databases (wc.rootsweb.ancestry.com)

By Joe Petrie

Summary:

In 1999, RootsWeb launched the WorldConnect Project. This article is intended to help people use the WorldConnect software and databases.

Some claim that WorldConnect has evolved into the world's largest collection of Family Trees. Why? For genealogists who love to share, WorldConnect provides software for the genealogist to share records on the sharers' terms. For example, the contributor selects how to share, for example, the contributor can select to share by allowing a user to download a GEDCOM file. Attribution is still a major issue.

For this article, I'll focus on the World Connect databases of two contributors: Robert L Hegerich and Sheila Smith. There are lots of Boutilier records in my database that I gave gathered from these two contributors' databases. Remember that both of my parents were Boutiliers from Cape Breton who immigrated to Boston in the 1920s. Dad did not know that his Rockett grandmother was a Boutilier.

Background:

I am a genealogy gatherer. I can honestly say that WorldConnect has made my gathering and integrating easier. Two of the many genealogists who have made gathering faster and easier are Bob and Sheila. They deserve a lot of credit for my writings about my Boutilier families. I am currently working on my Maillard family. Thank you both!

About 15 years ago, I learned about WorldConnect in Sydney NS at a dinner hosted by Charles "Chick" Buchanan. John Howie, another of Chick's guests, was astonished that I as a "genealogist in-training" had done very little Boutilier research and never heard of the project. (Please note that I used the "genealogist in-training" description for over 20 years.) John promptly educated me as best he could even though there was no available computer. (I had 2 desktops at home but no laptop.)

Bob and Sheila are two of my favorite genealogists who have published Boutilier records on the Internet. Others include: Kim Stevens, Don Shankle, Victoria Boutilier, David S Conrad and Pat Watson. Favorite Boutilier genealogists who have shared but have not published (to my knowledge) on the internet include: Charles Buchanan, John Howie, Brenda Maruca, and Elizabeth Taylor. (Some of them have passed away.) There are others who have been enumerated in my articles that have been published in the members' section of the Cape Breton Genealogy and Historical Association's web site. Please note that all of my articles are in the repository and web site of the Friends of Irish Research.

Bob's WorldConnect database is named: A Few Relatives of Robert L and Mary J (Mahoney) Hegerich. In March 2015, Bob's database contained over 200 thousand records. Nearly 4000 were for individuals with a Boutilier surname. At one time, Bob's database had nearly 500 thousand records.

Sheila's WorldConnect database is named: Sheila's Family Tree. In March, 2015, it contained over 50 thousand records. Nearly 900 were for individuals with a Boutilier Surname. (Please note that Sheila's database has Boutilier Surnames with 3 different spellings.)

One final note: With the explosion of internet resources, you might wonder how I keep up. Periodically I search "Boutilier Genealogists" to search for new contributors or updates. Also I search my ancestors' surnames (such as Petrie Genealogists) for the same information for the other surnames on my direct line. In addition, I look at WikiTrees for my ancestors' surnames.

Bob Hegerich's WorldConnect Records:

The following is a screen print for the results of my query using Internet Explorer.

The screenshot shows a search result page in Internet Explorer. The address bar displays the URL: <http://www.bing.com/search?q=Bob>. The search results include:

12:57 PM

Note that there were 10 records for PETRIE. They may be related to me!

I decided to search for Jacques (James) Boutilier from: Etoban, Montbeliard; Lunenburg NS; St Margaret's Bay NS and Coxheath NS. Jacques (James) Boutilier purchased the "Cox Heath Farm" in Sydney River, Cape Breton about 1811 from Major Cox who was returning to England. Jacques moved most of his family to Coxheath by 1814. The family was transported from the St. Margaret's Bay area in Jacques' cargo ships which were principally used to transport coal from Cape Breton to Halifax. Please note that Jacques also had a successful fishing business in Boutilier's Point NS. In Coxheath, the family also became successful farmers and millers.

I've had Genealogists tell me that Jacques was the first French man to buy land. Victoria Boutilier describes the Boutilier family move as follows:

"Sometime during the period of 1811-1814 James and Suzanne removed from Boutilier's Point and joined most of their sons and daughters at Sydney River (now Coxheath), Cape Breton where they took up residence. He petitioned the government in 1822 for a grant of land stating he is upward of 100 years old. He lied a little as he was about 87. He states he is a native of Switzerland, as the french were frowned upon. His mother or grandmother may have been Swiss. He was not French although his language was French, the Montbeliards were considered a forgotten people. James died in 1827."

Obviously, Victoria Boutilier believes that some of Jacques' family had already settled in Cape Breton. If so, I suspect that they were involved in the shipping business and may have been based in Sydney Mines.

The next two screen prints are Bob Hegerich's record for Jacques.

The first screen print (on the next page) shows his vitals:

Name: Jacques BOUTILIER

Given Name: Jacques

Surname: Boutilier

Nickname: James

Sex: M

Birth: 4 AUG 1735 in Etoben, Montbeliard

Death: 27 MAY 1827 in Sydney, Cape Breton, NS

In addition, after Jacques' vitals, the first screen print shows some of Jacques' parents vitals with hyperlinks to their record.

Father: Jean Georges BOUTILIER b: 19 AUG 1691 in Etoben, Montbeliard, France

Mother: [Sarah GRANGE](#)

Marriage 1 [Susanne Elisabeth RIGOULEAUX](#) b: ABT 1745 in Montbeliard

+ Married: 22 DEC 1765 in Lunenburg County, NS [2](#)

The second screen print shows Jacques' children and Bob's sources.

Children (Married children have an icon before their name)

1.  **[James Frederick BOUTILIER](#) b: 20 FEB 1766 in Lunenburg County, NS c: 23 FEB 1766 in Lunenburg County, NS**

2.  **[Catharina Elizabeth BOUTILIER](#) b: 9 FEB 1770 in Lunenburg County, NS**

3. **[George Jacob BOUTILIER](#) b: 28 NOV 1772 in Lunenburg County, NS**

[Index](#) | [Descendancy](#) | [Register](#) | [Pedigree](#) | [Ahnentafel](#) | [Public Profile](#) | [Add Post-em](#)

To facilitate search and help eliminate duplicate entries, some surnames in this file have been anglicized/standardized; e.g. KOCH==>COOK. Additions, corrections, comments, aspersions, etc. are welcome.

[Printer Friendly Version](#) [Search Ancestry](#) [Search WorldConnect](#) [Join Ancestry.com Today!](#)

Note that at the bottom of the screen print there are 6 options:

[Descendancy](#) | [Register](#) | [Pedigree](#) | [Ahnentafel](#) | [Public Profile](#) | [Add Post-em](#)

The first four are genealogy terms:

- Descendancy lists the individuals in Bob's WorldConnect database who descended from Jacques. The report lists 8 generations descended from Jacques.
- Register is a typical NEHGS format report covering 7 generations.
- Pedigree displays a Pedigree Chart. It shows Jacques' parents.
- Ahnentafel is essentially a Register reports for Jacques' Ancestors.
- Public Profile provides additional information on Bob.
- The final option identifies the user.

Sheila Smith's WorldConnect Records:

Showing the same screen prints would bore you! I'll show the Index and a few new screens.

The screenshot shows a web browser window displaying the RootsWeb website. The browser's address bar shows the URL <http://wc.rootsweb.ancestry.com/cg>. The website header includes the RootsWeb logo with the tagline "Finding our roots together." and the Ancestry.com logo with the tagline "AN ancestry.com COMMUNITY". A navigation menu contains links for Home, Searches, Family Trees (which is highlighted), Mailing Lists, Message Boards, Web Sites, Passwords, and Help. Below the navigation menu is a search box with the text "SEARCH MILLIONS OF ORIGINAL SOURCE DOCUMENTS" and a "fold3" logo. The search box contains input fields for "First Name", "Last Name", and "State", along with a "Search now" button. Below the search box, the page title is "Sheila's Family Tree". Underneath the title, it says "Entries: 55424 Updated: 2014-04-06 14:45:08 UTC (Sun) Contact: sheila sheilasmith44@gmail.com". There is a search input field with the text "Enter surname OR surname, given to find:" and a "List" button. Below the search field is a link for "Advanced Search". At the bottom of the page, there is a navigation bar with links for "WorldConnect Home", "WorldConnect Global Search", and "WorldConnect Help". The browser's taskbar at the bottom shows the time as 8:36 AM.

Sheila's Index contains nearly 900 Boutilier records – when the 3 Boutilier name totals are summed.

[BOUTEILLER](#)[378]

[BOUTELLER](#)[1]

[BOUTILIER](#)[498]

Please see the next screen orint.

Please note that I searched the index using a partial Surname of BOUT.

The screenshot shows the Ancestry.com website interface. At the top, there is a navigation bar with links for Home, Searches, Family Trees, Mailing Lists, Message Boards, Web Sites, Passwords, and Help. Below this is a search box with the text "SEARCH MILLIONS OF ORIGINAL SOURCE DOCUMENTS" and a "fold3P" logo. The search box contains fields for "First Name", "Last Name", and "State", along with a "Search now" button. Below the search box, the page title is "Sheila's Family Tree". Underneath, it says "Entries: 55424 Updated: 2014-04-06 14:45:08 UTC (Sun) Contact: sheila sheilasmith44@gmail.com". There is a search bar with "Bout" entered and a "List" button. Below that, there is a link for "Advanced Search" and a list of surnames starting with "BOUT": BOUTEILLER[378], BOUTELLER[1], BOUTHENOT[1], BOUTILIER[498], BOUTON[2]. At the bottom, there are links for "Search Ancestry", "Search WorldConnect", and "Join Ancestry.com Today!".

Sheila's Gedcom Option

The following screen print shows that I selected Nicolas Bouteiller, (Jacques Boutiler's Ancestor).

The screenshot shows the Ancestry.com website interface. At the top, there is a navigation bar with links for Home, Searches, Family Trees, Mailing Lists, Message Boards, Web Sites, Passwords, and Help. Below this is a search box with the text "START SEARCHING HISTORICAL NEWSPAPERS FREE" and a "Newspapers.com" logo. The search box contains fields for "First Name" and "Last Name", along with a "Search now" button. Below the search box, the page title is "Sheila's Family Tree". Underneath, it says "Entries: 55424 Updated: 2014-04-06 14:45:08 UTC (Sun) Contact: sheila sheilasmith44@gmail.com". There are links for "Index", "Individual", "Descendancy", "Register", and "Public Profile". Below these links, there is a section for "Download full GEDCOM as a ZIP file". This section contains the following information: "Starting with: 15175", "Name: Nicolas BOUTEILLER", "Born: Abt 1596 in Chagey, Haute Saone, France", "Died: 25 Jan 1675 in Etobon, Haute Saone, France". There are also options to "Produce a GEDCOM file from" (Ancestors), "Number of Generations" (10), and "End of line character" (CRLF). A "Download" button is at the bottom of this section.

Summary of Differences between Bob's and Sheilas:

There are a few differences between Sheila's and Bob's versions of World Connect:

- Sheila has a GEDCOM option that allows the user to download a GEDCOM File. I use the GEDCOM feature to gather records for my database. Bob's software does not include a GEDCOM option.
- Sheila's Boutilier Register Report starts with Nicolas Boutilier who died in Etoban in 1675. Her Pedigree Chart and Ahnentafel Report for Jacques Boutilier goes back a few more generations than Bob's Pedigree Chart and Ahnentafel Report which goes back one generation.
- Sheila has a lot less records than Bob's.
- I believe that for both there are a number of Boutilier families that are incomplete or missing. (I always expect that.) For example, in Sheila's World Connect database, Jacques' Index record's screen print shows two children. Bob's print screen shows 8 children with 4 married. (On a published Register Report, I have 10 children - there are 9 married in my database.)
- Sheila's database is static. It has not been maintained since 2014.
